

Injector UV Dye Kit

A kit designed for adding a specific amount of UV dye by hand. Perfect for the mobile engineer or the ease of safe storage in a workshop.

Pour the dye into the twister, connect it via the coupler to the car and twist, it's that simple...

Kit comes with a 12v UV lamp, UV glasses, UV dye remover, R134a coupler, 250ml UV Dye & Aluminium hand twister.

All supplied in a plastic carry case.
